Software Updates – As-built as-configured

March 2020

Contents

Overview

Purpose

The purpose of this as-built as-configured (ABAC) document is to detail the software update ring profiles deployed within the solution. These profiles align to the design decisions captured within the associated blueprint document. All settings captured within this ABAC were captured as of the time of writing.

Associated Documentation

The following table lists the documents that were referenced during the creation of this ABAC.
